

Roadmap Part 2 Coronavirus (Covid19)

Less and less people are getting Coronavirus in Ireland. The Government have told us we can move on to Stage 2 of their roadmap or plan.

Stage 2 of the Roadmap starts on Monday the 8th of June. It will be 3 weeks long.

Because less people are getting Coronavirus, some parts of the plan that were in Stage 3, are now in Stage 2. This is good news.

What things will change in Stage 2?

We can now travel all over our county or we can travel 20km from our house to anywhere.

We can meet 6 people from a different house outdoors and indoors.

Some events can take place outside with no more than 15 people like sports and exercise.

All shops will open, and shopping centres will open on the 15th of June. There will be set times for when the elderly and people with health problems can go shopping.

Libraries and playgrounds can also open and some summer camps for children.

Things we still need to remember:

Don't get too close to people.

Work from home if you can.

Only use public transport like the Bus or Luas if you really need to.

Wash your hands well and often.
